Systems (SQS)

SA8000

Certification of social management systems based on SA8000

In cooperation with IQNet Ltd, SQS offers SA8000 audits with an SA8000 certificate issued by IQNet Ltd.

Incentive

Organisations can optimise their commitment to social responsibility and their related business practices using the recognised SA8000 standard and present them to customers and interested parties. The relevant key issues are fair working conditions, occupational health and safety, respect for human rights, dealing with business partners, supply chain involvement, local development and other social needs that play a role in the long-term success of the company.

Outcome

With SA8000, the commitment to socially responsible business ethics is demonstrated and results in a reduction of reputational risk. As a result, trust and reputation as a socially responsible company increases among customers, consumers and investors.

Target groups

Companies and organisations of all sectors and sizes.

Swiss Made

REPRESENTATIVE OF

Validity

The issued certificate is valid for 3 years. After the certification or recertification audit, subsequent surveillance audits are conducted to assess and confirm the validity of the certification over time. Their frequency depends on the audit results and the procedural requirements of IQNet Ltd.

Recognition

IQNet Ltd is accredited by SAAS (Social Accountability Accreditation Services) for the certification of social responsibility management systems. SQS, as the representative of IQNet Ltd, offers SA8000 certification services worldwide. For more information please visit IQNet Ltd:

<https://www.iqnet-ltd.com/en/certification/sa8000>

The IQNet Ltd. certificate SA8000 is internationally recognised.

Combinations

The SA8000 system complements existing management systems such as ISO 9001 (quality management), ISO 14001 (environmental management), ISO 45001 (occupational safety and health) and can be integrated into existing systems.
