Systems (SQS)

eduQua:2021

Quality label for further education providers in Switzerland

Incentive

Are you interested in the continuous development of your education establishment and do you want to proactively meet the needs of the times? As part of the certification process, you will receive feedback on your quality management system from our auditors. In addition, you will examine your own educational-, management- and communication processes as well as your educational offers and customer needs by means of a self-evaluation. Through the analyses, feedback and ideas, you recognise opportunities and possibilities for potential developments and ensure the quality required by yourself and by third parties.

Outcome

The eduQua label gives certified further education establishments an advantage on the market. The thoughts and exchanges surrounding certification have a positive effect on the quality of the further education establishments. Certification is also an advantage vis-à-vis the authorities. In many cantons, an audited quality management system is a prerequisite for receiving public money. The eduQua certificate is considered a suitable and widespread proof of quality.

Target groups

Education establishments

Validity

3 years - there is an annual interim audit.

Recognition

The SQS eduQua certificate has national recognition.

Combinations

eduQua:2021 can be combined with ISO 9001 and/or ISO 21001 as well as with an IN-Qualis certification.

Contact

Further general information can be obtained from our office in Zollikofen.

Our auditors are also available to answer queries on specific subjects.
